

OTC Foundation

IMPACT REPORT

2021

Letter From the Executive Director

The year 2021 was another year of accomplishment and celebration for the OTC Foundation, thanks to the support of our friends and community. The mission of the OTC Foundation, to support Ozarks Technical Community College as it transforms lives and strengthens communities, wouldn't be possible without all of you.

This year's impact report highlights some of the major accomplishments of the year, including the success of the fundraising campaign for the Robert W. Plaster Center for Advanced Manufacturing. But while we supported the college's most important initiative in our history, we did not sacrifice our standard of student support to do so. We continued to assist students with unexpected financial barriers through the Student Emergency fund and awarded a record amount of scholarships to deserving students in 2021, which the data tells us will lead to better course completion and retention rates for recipients.

We couldn't do this life-changing work without you. Thank you for your continued commitment to the OTC students and communities we serve. The best is yet to come.

Amy Bacon

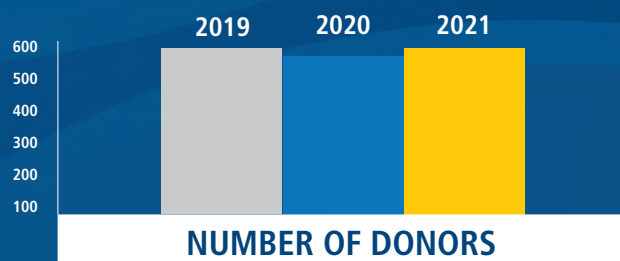

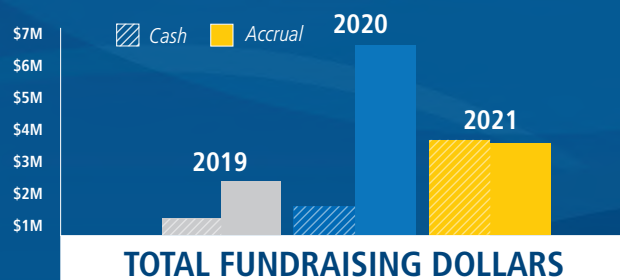

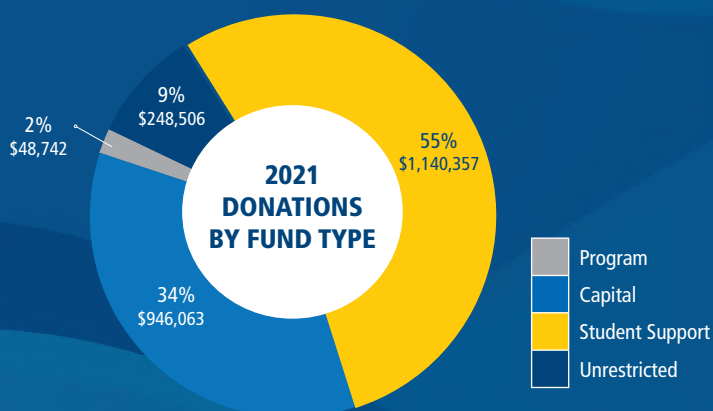

Executive Director of the OTC Foundation
